

About Us

Do not settle for "Me Too" products that merely imitate, but never match the level of performance and innovation offered by Windshield Skin®.

While others may claim to provide windshield protection, only one product has earned the prestigious SEMA award.

Windshield Replacement

Windshields are the #1 Auto Insurance Claim in the USA

14 MILLION

Windshields are replaced annually in the U.S. due to damage.

30,000 WINDSHIELDS

On average, 30,000 windshields are cracked or damaged every hour globally.

50% OF DAMAGE

Road debris, including stones and gravel, are responsible for approximately 50% of windshield damage.

70% OF DRIVERS

70% of drivers will experience some form of windshield damage during their vehicles' lifetime.

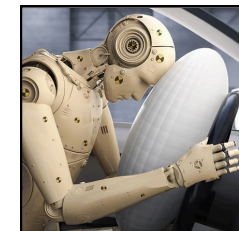

What You Need To Know

For every 1 million vehicles, there are over 300,000 breaks

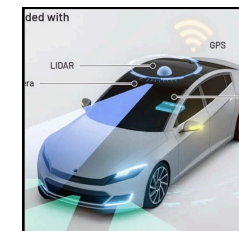

Environmental:

Damaged windshields contribute to 20 million pounds of glass being discarded into U.S. landfills annually.

Safety Impact:

Damaged windshields can reduce airbag effectiveness by 30%, compromising structure and safety.

Advanced Technologies:

90% of new vehicles have ADAS, using sensors for cruise control and collision avoidance.

ADAS Calibration:

75% of ADAS-equipped vehicles require sensor recalibration after windshield replacement for proper function.
