

3M Vehicle Color Change

The 3M Vehicle Color Change program is a three (3) day course dedicated to teaching installers how to install 3M Wrap Film Series 2080.

Students learn the fundamental skills and knowledge necessary to advance in the personal auto industry. The trainer emphasizes hands-on training using the proper application tools to help installers succeed in real-world situations. On the third day, installers have the option to continue training or attempt the installation test if they feel confident in their skillset. Installers who take and pass the test will earn the **3M Vehicle Color Change Preferred Installer** accreditation. Students who are new to the industry (or who have less than a year of experience) are advised not to take the test.

\$1,995.00 PER PERSON
